American Nations Apr 27 2022 • A New Republic Best Book of the Year • The Globalist Top Books of the Year • Winner of the Maine Literary Award for Non-fiction • Particularly relevant in understanding who voted for who in this presidential election year, this is an endlessly fascinating look at American regionalism and the eleven "nations" that continue to shape North America According to award-winning journalist and historian Colin Woodard, North America is made up of eleven distinct nations, each with its own unique historical roots. In American Nations he takes readers on a journey through the history of our fractured continent, offering a revolutionary and revelatory take on American identity, and how the conflicts between them have shaped our past and continue to mold our future. From the Deep South to the Far West, to Yankeedom to El Norte, Woodard (author of American Character: A History of the Epic Struggle Between Individual Liberty and the Common Good) reveals how each region continues to uphold its distinguishing ideals and identities today, with results that can be seen in the composition of the U.S. Congress or on the county-by-county election maps of any hotly contested election in our history.

In this replica of the 1921 "revised and enlarged" second edition, Mencken turns his keen ear on: • the general character of American English • loan-words and non-English influences • expletives and forbidden words • American slang • the future of the language • and much, much more. Anyone fascinated by words will find this a thoroughly enthralling look at the most changeable language on the face of the planet.

The Federalist Papers Jan 31 2020 Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

The Paranoid Style in American Politics Feb 23 2022 This timely reissue of Richard Hofstadter's classic work on the fringe groups that influence American electoral politics offers an invaluable perspective on contemporary domestic affairs. In *The Paranoid Style in American Politics*, acclaimed historian Richard Hofstadter examines the competing forces in American political discourse and how fringe groups can influence — and derail — the larger agendas of a political party. He investigates the politics of the irrational, shedding light on how the behavior of individuals can seem out of proportion with actual political issues, and how such behavior impacts larger groups. With such other classic essays as “Free Silver and the Mind of 'Coin' Harvey” and “What Happened to the Antitrust Movement?,” *The Paranoid Style in American Politics* remains both a seminal text of political history and a vital analysis of the ways in which political groups function in the United States.

Margaret Fuller : An American Romantic Life Volume 1: The Private Years May 05 2020 With this first volume of a two-part biography of the Transcendentalist critic and feminist leader, Margaret Fuller, Capper has launched the premier modern biography of early America's best-known intellectual woman. Based on a thorough examination of all the first-hand sources, many of them never before used, this volume is filled with original portraits of Fuller's numerous friends and colleagues and the influential movements that enveloped them. Writing with a strong narrative sweep, Capper focuses on the central problem of Fuller's life--her identity as a female intellectual--and presents the first biography of Fuller to do full justice to its engrossing subject. This first volume chronicles Fuller's "private years": her gradual, tangled, but fascinating emergence out of the "private" life of family, study, Boston-Cambridge socializing, and anonymous magazine-writing, to the beginnings of her rebirth as antebellum America's female prophet-critic. Capper's biography is at once an evocative portrayal of an extraordinary woman and a comprehensive study of an avant-garde American intellectual type at the beginning of its first creation.

Reading Hebrews and 1 Peter with the African American Great Migration Aug 20 2021 Kaalund examines the constructed and contested Christian-Jewish identities in Hebrews and 1 Peter through the lens of the "New Negro," a diasporic identity similarly constructed and contested during the Great Migration in the early 20th century. Like the identity "Christian," the New Negro emerged in a context marked by instability, creativity, and the need for a sense of permanence in a hostile political environment. Upon examination, both identities also show complex internal diversity and debate that disrupts any simple articulation as purely resistant (or accommodating) to its hegemonic and oppressive environment. Kaalund's investigation into the construction of the New Negro highlights this multiplicity and contends that the rhetoric of place, race, and gender were integral to these processes of inventing a way of being in the world that was seemingly not reliant on one's physical space. Putting these issues into dialogue with 1 Peter and Hebrews allows for a reading of the formation of Christian identity as similarly engaging the rhetoric of place and race in constructive and contested ways.
