Iran's Language Planning Confronting English Abbreviations Nov 23 2019 This book addresses one of the most crucial and common questions confronting planners of languages other than English, that is, how the impacts of global languages on local languages should be dealt with: internationalization or local language promotion? This empirical study examines the implementation of Iran's governmental language and terminology policy to accelerate rarely used abbreviation methods in Persian in order to preserve the language from the extensiveness of borrowed English abbreviated forms. This book provides an in-depth analysis of relevant linguistic theories as well as the structure and social context of the Persian language itself, rather than relying on personal opinions or beliefs either in favour of or against abbreviation. The text appeals to politicians, language planners, terminologists, lecturers, authors and translators of scientific works, especially those who are speakers of languages other than English and seek to promote their local

languages. This book is particularly relevant to linguistics students (both undergraduate and graduate students) and language teachers and researchers in the broader areas of language education and curriculum design.

Mustang 5.0 Performance Projects Apr 09 2021 From America's cultural gatekeeper comes a profile of the man who defines the nation's soul. David Remnick, Pulitzer Prize-winning writer and editor of 'The New Yorker', applies his unique journalistic voice to paint a portrait of rock legend and working-class poet Bruce Springsteen. The result is what 'Rolling Stone' called 'one of the most thorough profiles of Springsteen ever published'. Remnick shadows Springsteen from his recent Wrecking

Ball world tour, the whole way back to the beginning, back to Asbury Park, to childhood rock'n'roll fantasies. Details of Springsteen's strained relationship with his father, his battle with mental illness, his marriage, and the joys and anguish of friendships forged and lost with ephemeral E Street Band members, are all delicately woven through a career that spans over four decades as America's working-class hero. *We Are Alive* not only tells the story of a living legend, but also produces an insight into the heart of America, the drive of self-transformation and renewal. Remnick has created an important text on the history of music. 'One of the most thorough profiles of Springsteen ever published.' *Rolling Stone*

Mickey Thompson Jun 11 2021 Mickey Thompson offers a now-impossible (Thompson and his wife were murdered in 1988) first-person telling of the legendary racer and motorsport impresario's high-speed

life, from his earliest days through the height of his competition exploits on drag strips, at Bonneville, the Indy 500, Baja, and more—complemented by some 100 rare images culled from family archives, the NHRA museum, and the collections of friends and fellow racers. Four decades after his tragic death, Mickey Thompson's name and accomplishments remain legendary among motorsports and automotive enthusiasts. Thompson did it all on four wheels: land-speed racing, drag racing, off-road, NASCAR, Indianapolis...anything involving speed. Armed with a restless mind and a keen business sense, Thompson moved from success to success. In the early 1970s, motorsports writer (and former drag racer) Tom Madigan and Thompson embarked on a project to write the latter's autobiography. After two years, extensive interviews, and a near-finished manuscript the whole enterprise fell apart for a number of reasons. Type-written sheets, neatly stacked, were boxed, stored, and mostly forgotten. Mickey Thompson: The Lost Story of the Original Speed King in His Own Words is that never-published work—an amazing biographical artifact from what many consider the golden age of automotive racing.

Ride shotgun with Ken Miles through the twists and turns of Sebring, Laguna Seca, Riverside, and Le Mans as seen through the lens of Shelby American photographer Dave Friedman! The hiring of Ken Miles by Carroll Shelby in February 1963 initiated arguably the greatest pairing of driver/owner partnerships in the history of motorsports. Not only did Shelby hire Competition Manager Ken Miles as an accomplished road racer but also Miles brought

The list of race cars that Ken piloted at Shelby American is nearly unrivaled: the Shelby 289 Cobra, 390 Cobra, 427 Cobra, King Cobra, Shelby Daytona, Mustang GT350R, and Ford GT. Ken dominated the 1964 United States Road Racing Championship (USRRC) racing season by winning 8 of 10 races to secure the Manufacturers' Championship. However, it was at Le Mans where Ken Miles became a worldwide household name. The robbery that was the 1966 24 Hours of Le Mans is laid out in excruciatingly accurate detail as Ford royalty Carroll Shelby, Carroll Smith, Homer Perry, Leo Beebe, Charlie Agapiou, Bob Negstad, Carroll Smith, and Peter Miles recall the race and the tragedy that followed two months later. Shelby Mustang Fifty Years Mar 08 2021 "Celebrate America's premier performance car! From the original Shelby Mustang GT350 to today's 700-plus horsepower GT500, Carroll Shelby and Ford Motor Co. have defined high-performance with their Shelby Mustangs. Shelby built his Mustangs from 1965 until 1970, at a time when it seemed that the muscle car was a dying breed. Then an odd thing happened-people began to realize the classic nature of the car almost as soon as Shelby stopped building them and prices began to climb. By the end of the decade, the Shelby Mustang had become one of the first muscle cars to attain classic status, along with the price hike that went along with that recognition. Prices continued to rise into the next century; a 1967 Shelby Mustang GT500 fetched \$451,000 at auction in 2006, at which time production of new Shelby Mustangs began for the first time in 36 years. Since then prices have cooled a bit, but not nearly as much as they have for other muscle cars; Shelby Mustangs still occupy the top slot at most auctions and Shelby continues to build the popular modern versions of the Mustang today. [This book] tells the story of these amazing cars, from the initial collaboration with Ford to today's record-setting high-tech muscle cars."--Publisher description.

Mustang Legends Oct 03 2020 Just in time for the 40th anniversary of the Ford Mustang comes this first of its kind anthology of memoirs, stories, and reminiscences of one of Ford's most beloved models.

1969 Ford Mustang Mach 1 Dec 17 2021 By the time the 1969 model year rolled around, it was well established that muscle cars were fast and plentiful. Every manufacturer had at least one corner of the showroom where the "go fast" guys could congregate and discuss the merits and time slips of the latest performance offerings. Competition being what it was, the manufacturers were looking for ways to entice potential buyers to choose their product over ever-increasing offerings from the competition. Some manufacturers tried to accomplish this with affordable prices, some tried fancy marketing schemes, and some created a look and a style that screamed "performance" even when standing still. The 1969 Mach I was Ford's attempt to create a package and a style to match the performance of its recently released and very potent 428-ci Cobra Jet engine package. Displacing the still-available but more conservative GT trim, the Mach I included unique and innovative graphics and mechanical innovations including shaker hood scoops, dual racing mirrors, deluxe interiors, competition suspension, dual chrome exhaust tips, and blacked-out hoods. The result was a wildly popular model that sold more than 70,000 units, compared to slightly more than 5,000 GT models for the year. Each volume in the In Detail Series provides an introduction and historical overview, an explanation of the design and concepts involved in creating the car, a look at marketing and promotion, an in-depth study of all hardware and available options, and an examination of where the car is on the market today. Also included are paint and option codes, VIN and build tag decoders, as well as production numbers.
