[A Pledge with Purpose](#) Set 29 2019 Reveals the historical and political significance of "The Divine Nine"—the Black Greek Letter Organizations In 1905, Henry Arthur Callis began his studies at Cornell University. Despite their academic pedigrees, Callis and his fellow African American students were ostracized by the majority-white student body, and so in 1906, Callis and some of his friends started the first, intercollegiate Black Greek Letter Organization (BGLO), Alpha Phi Alpha. Since their founding, BGLOs have not only served to solidify bonds among many African American college students, they have also imbued them with a sense of purpose and commitment to racial uplift—the endeavor to help Black Americans reach socio-economic equality. A Pledge with Purpose explores the arc of these unique, important, and relevant social institutions. Gregory S. Parks and Matthew W. Hughey uncover how BGLOs were shaped by, and labored to transform, the changing social, political, and cultural landscape of Black America from the era of the Harlem Renaissance to the civil rights movement. Alpha Phi Alpha boasts such members as Thurgood Marshall, civil rights lawyer and US Supreme Court Justice, and Dr. Charles Wesley, noted historian and college president. Delta Sigma Theta members include Bethune-Cookman College founder Mary McLeod Bethune and women's rights activist Dorothy Height. Huey P. Newton, co-founder of the Black Panther Party, who left an indelible mark on the civil rights movement, was a member of Phi Beta Sigma, while I. Jemison, a celebrated engineer and astronaut, belonged to Alpha Kappa Alpha. Through such individuals, Parks and Hughey demonstrate the ways that BGLO members have long been at the forefront of innovation, activism, and scholarship. In its exploration of the history of these important organizations, A Pledge with Purpose serves as a critical reflection of both the collective African American racial struggle and the various strategies of Black Americans in their great—and unfinished—march toward freedom and equality.

Black Greek-Letter Organizations in the 21st Century Mar 27 2022 "A masterpiece of multidisciplinary scholarship that clearly demonstrates the contemporary relevance of black fraternities and sororities." —Hasan Kwame Jeffries, author of *Bloody Love* During the twentieth century, black Greek-Letter organizations (BGLOs) united college students dedicated to excellence, fostered kinship, and uplifted African Americans. Members of these organizations include remarkable and influential individuals such as Martin Luther King Jr., Congresswoman Barbara Jordan, novelist Toni Morrison, and Wall Street pioneer Reginald F. Lewis. Despite the profound influence of these groups, many now question the continuing relevance of BGLOs, arguing that their golden age has passed. To foster a greater engagement with the history and contributions of BGLOs, *Black Greek-Letter Organizations in the Twenty-First Century* brings together an impressive group of authors to explore the contributions and continuing possibilities of BGLOs for their members. Editor Gregory S. Parks and the contributing authors provide historical context for the development of BGLOs, exploring their service activities as well as their relationships with other prominent African American institutions. Both internally and externally, BGLOs struggle to forge a relevant identity for the new century. Internally, these groups wrestle with many issues including hazing, homophobia, petty intergroup competition, and the difficulty of bridging the divide between college and alumni members. Externally, BGLOs face the challenge of rededicating themselves to their communities and leading an aggressive campaign against modern forms of racism, sexism, and other types of fear-driven behavior. By embracing the history of these organizations and their continuing viability and relevance, *Black Greek-Letter Organizations in the Twenty-first Century* demonstrates that BGLOs can create a positive and enduring future and that their most important work lies ahead.

The Dallas Public Library Mar 03 2020 From its founding one hundred years ago by a group of dedicated women working to bring light and opportunity in their fledgling metropolis, the Dallas Public Library has provided essential services to the people of Dallas. Dallas Public Library, Michael V. Hazel presents the centennial history of this landmark institution, from its genesis as a single library with a staff of five, to a central library and twenty-two branch libraries with a staff of more than five hundred. This is the story of committed leaders like May Dickson Exall, who persuaded Andrew Carnegie to give \$50,000 to build Dallas's first free public library and director Cleora Clanton, who stretched a shoestring budget to provide service to all citizens of Dallas at a time when many were often shunned and intellectual freedom challenged. It is also the story of beloved director Lillian Bradshaw, who built a central library facility and a network of branches that reflect the interests of the neighborhoods they serve. More than just a place of books, the Dallas Public Library has offered many people a place for lifelong learning, practical skills development, pursuit of personal interests, and recreation. Through the years, the library has grown and changed with the city of Dallas and is ready to adapt again--as technology drives the information market--to adapt its services to meet the needs of Dallas citizens. This is the centennial history of a landmark institution, from its genesis as a single library with a staff of five to a central library and twenty-two branch libraries with a staff of more than five hundred. Richly illustrated with two hundred black-and-white photographs and ten color photographs.

The Wealth Choice Jun 25 2019 It's no secret that these hard times have been even harder for the Black community. Approximately 60 percent of African Americans had no measurable assets in 2009, and 24 percent of these same households had only a motorcycle. Dennis Kimbro, observing how the weight of the continuing housing and credit crises disproportionately impacts the African American community, takes a sharp look at a carefully cultivated group of individuals who've scaled the heights of success and how to emulate them. Based on a seven year study of 1,000 of the wealthiest African Americans, *The Wealth Choice* offers a trove of surprising advice about climbing the economic ladder, even when the odds seem stacked against you. Readers will learn about the business leaders, entrepreneurs, and celebrities like Bob Johnson, Spike Lee, L. A. Reid, Herman Cain, T. D. Jakes and Tyrese Gibson who found their paths to wealth; what they did or didn't learn about money early on; what they had to sacrifice to get to the top; and the discipline in managing their success. Through these stories, which include men and women at every stage of life and in every industry, Dennis Kimbro shows readers how to: · Develop a wealth-generating mindset and habits · Commit to lifelong learning · Set goals that match your passion · Make short-term sacrifices for long-term gain · Take calculated risks when opportunity presents

Black Greek-letter Organizations in the Twenty-First Century Apr 27 2022 During the twentieth century, black Greek-Letter organizations (BGLOs) united college students dedicated to excellence, fostered kinship, and uplifted African Americans. Mem

these organizations include remarkable and influential individuals such as Martin Luther King Jr., Congresswoman Barbara Jordan, novelist Toni Morrison, and Wall Street pioneer Reginald F. Lewis. Despite the profound influence of these groups, many now question the continuing relevance of BGLOs, arguing that their golden age has passed. Partly because of their perceived link to hip-hop culture, black fraternities and sororities have been unfairly reduced to a media stereotype—a world of hazing without any real substance. In general, the public knows very little about BGLOs, and surprisingly the members themselves often do not have a thorough understanding of their history and culture or of the issues currently facing their organizations. To foster a greater engagement with the history and contributions of BGLOs, *Black Greek-Letter Organizations in the Twenty-first Century: Our Fight Has Just Begun* brings together an impressive group of authors to explore the contributions and continuing possibilities of BGLOs and their members. Editor Greer L. Parks and the contributing authors provide historical context for the development of BGLOs, exploring their service activities and their relationships with other prominent African American institutions. The book examines BGLOs' responses to a number of contemporary issues, including non-black membership, homosexuality within BGLOs, and the perception of BGLOs as educational institutions. As illustrated by the organized response of BGLO members to the racial injustice they observed in Jena, Louisiana, these organizations still have a vital mission. Both internally and externally, BGLOs struggle to forge a relevant identity for the new century. Internally, these groups wrestle with many issues, including hazing, homophobia, petty intergroup competition, and the difficulty of bridging the divide between college and alumni members. Externally, BGLOs face the challenge of rededicating themselves to their communities, leading an aggressive campaign against modern forms of racism, sexism, and other types of fear-driven behavior. By embracing the history of these organizations and exploring their continuing viability and relevance, *Black Greek-Letter Organizations in the Twenty-first Century* demonstrates that BGLOs can create a positive and enduring future and that their most important work lies ahead. *Strategize to Win* (Jul 27 2019) The Wall Street powerhouse and author of *Expect to Win* offers a new way to conceptualize career strategies and gives us proven tools for successful change. With her trademark galvanizing advice, Harris identifies and clarifies issues that are often murky, offering lessons on: Identifying and making the most of your work profile (are you a Good Soldier? a Leader? an Arguer?); preparing for a career change without going back to school or taking a step down: honing three essential skills industry leaders value (and how to get them); tuning into unspoken cues; and thriving through change. Introducing a new way of planning one's career in five-year units, *Strategize to Win* distills battle-tested and step-by-step tools that Carla has used to launch and sustain her successful career and help others move forward, recover from setbacks, and position themselves for success.

Jessie Redmon Fauset (Aug 27 2019) This book is about the truly remarkable black American woman writer Jessie Redmon Fauset. She was born on April 27, 1882, and died on April 30, 1961. She wrote her four novels, which will be the primary focus of this book, during the intriguing Harlem Renaissance period—the 1920s and 1930s—in our nation's history (Rowen & Brunner 2000/2015). Jessie Redmon Fauset was a phenomenal black woman writer who lived her life as a/an author, editor, friend, mentor, party planner, poet, social activist, teacher, and honorary member of the Delta Sigma Theta Sorority Inc. (Wikipedia [Magioladitis ed.] 2017). The list goes on and on, but I have decided to focus on these areas in this book. Jessie Redmon Fauset was a true mentor and supporter for many black writers during the Harlem Renaissance. This is what and who, as a woman and a writer, Jessie Redmon Fauset is to me.

In Search of Sisterhood (Nov 03 2022) This history of the largest black women's organization in the United States is not only the story of the Delta Sigma Theta Sorority (DST), but also tells of the increasing involvement of black women in the political, social, and economic affairs of America. Founded at a time when liberal arts education was widely seen as either futile, dangerous, or impractical for especially women, DST is, in Giddings's words, a "compelling reflection of black women's aspirations for themselves and for society." Giddings notes that unlike other organizations with racial goals, Delta Sigma Theta was created to change and benefit individuals rather than society. As a sorority, it was formed to bring women together as sisters, but at the same time to address the day-to-day class-related issues confronting black women in our society. There is, in Giddings's eyes, a tension between these goals that makes Delta Sigma Theta a fascinating microcosm of the struggles of black women and their organizations. DST members have included Mary McLeod Bethune, Mary Church Terrell, Margaret Murray Washington, Shirley Chisholm, Barbara Jordan, and, on the cultural side, Leontyne Price, Lena Horne, Ruby Dee, Judith Jamison, and Roberta Flack. *In Search of Sisterhood* is full of compelling, fascinating anecdotes told by the Deltas themselves, and illustrated with rare early photographs of the Delta women.

Betty quickly finds confidence and purpose in volunteering for the Housewives League, an organization that supports black-owned businesses. Soon, the American civil rights icon we now know as Dr. Betty Shabazz is born. Collaborating with novelist Renée Watson, Ilyasah Shabazz illuminates four poignant years in her mother's childhood, painting a beautiful and inspiring portrait of a girl overcoming the challenges of self-acceptance and belonging that will resonate with young readers today. Backmatter included.

Diversifying Diplomacy Apr 03 2020 Today, diverse women of all hues represent this country overseas. Some have called this development the "Hillary Effect." But well before our most recent female secretary of state there was Madeleine Albright, the first woman to serve in that capacity, and later Condoleezza Rice. Beginning at a more junior post in the Department of State in 1981, she was "the little Elam girl" from Boston. *Diversifying Diplomacy* tells the story of Harriet Lee Elam-Thomas, a young black woman who beat the odds and challenged the status quo. Inspired by the strong women in her life, she followed in the footsteps of the women who had gone before her in her effort to make the Foreign Service reflect the diverse faces of the United States. The young Elam-Thomas, the daughter of parents who left the segregated Old South to raise their family in Massachusetts, Elam-Thomas distinguished herself with a successful career at a time when few colleagues looked like her. Elam-Thomas's memoir is a firsthand account of her decades-long career in the U.S. Department of State's Foreign Service, recounting her experiences of making U.S. foreign policy, culture, and values understood abroad. Elam-Thomas served as a United States ambassador to Senegal (2000-2002) and retired with the rank of career minister after forty-two years as a diplomat. *Diversifying Diplomacy* presents the journey of this successful woman, who not only found her way but also confronted by some of the world's heftier problems but also helped ensure that new shepherds of honesty and authenticity followed in her international footsteps for generations to come.

Confronting Racism in Higher Education Jan 31 2020 Racism and ignorance churn on college campuses as surely as they do in society at large. Over the past fifteen years there have been many discussions regarding racism and higher education. Some focus on formal policies and dynamics such as Affirmative Action or The Dream Act, while many more discussions are happening in classrooms, dorm rooms and in campus communities. Of course, corollary to these conversations, some of which are general, some of which are degenerative, is a deafening silence around how individuals and institutions can actually understand, engage, and change issues related to racism in higher education. This lack of dialogue and action speaks volumes about individuals and organizations, and suggests a complicit acceptance, tolerance or even support for institutional and individual racism. There is

work to be done if we are to improve the situation around race and race relation in institutions of higher education. There is work to be done in unpacking and addressing the educational realities of those who are economically, socially, and politically underserved and oppressed by implicit and overt racism. These realities manifest in ways such as lack of access to and with education, in equitable outcomes and in a disparity of the quality of education as a student matriculates through the system. While occasional diversity and inclusion efforts made in higher education, institutions still largely address them as quotas, and paradigmatic changes. This focus on "counting toward equity rather" than "creating a culture of equity" is basically a form of privilege that allows administrators and policymakers to show incremental "progress" and avoid more substantive action toward equity that changes the culture(s) of institutions with longstanding racial histories that marginalize some and privilege others. Higher education are still raced from white perspectives and suffer from a view that race and racism occur in a vacuum. Some research suggests that racism begins very early in the student experience and continues all the way to college (Berlak & Moyenda). This education, mislabeling and mistreatment based on race often develops as early as five to ten years old and "follows" them to postgraduate education and beyond.

History of Sigma Pi Phi, First of the Negro-American Greek-letter Fraternities 02 2020

Open Wide The Freedom Gates 12 2020 Dorothy Height marched at civil rights rallies, sat through tense White House meetings, and witnessed every major victory in the struggle for racial equality. Yet as the sole woman among powerful, charismatic men whose personal ambition was secondary to her passion for her cause, she has received little mainstream recognition--until now. In her memoir, Dr. Height, now ninety-one, reflects on a life of service and leadership. We witness her childhood encounters with racism, the thrill of New York college life during the Harlem Renaissance. We see her protest against lynchings. We sit with her on the steps of Martin Luther King Jr. delivers his "I Have a Dream" speech. We meet people she knew intimately throughout the decades: W. E. B. DuBois, Marcus Garvey, Eleanor Roosevelt, Mary McLeod Bethune, Adam Clayton Powell Sr., Langston Hughes, and many others. And we watch as she leads the National Council of Negro Women for forty-one years, her diplomatic counsel sought by U.S. Presidents from Eisenhower to Clinton. After the fierce battles of the 1960s, Dr. Height concentrates on troubled black communities, on rural poverty, teen pregnancy and black family values. In 1994, her efforts are officially recognized. Along with Rosa Parks, she receives the Presidential Medal of Freedom, the nation's highest civilian honor.

The Big Deal of Taking Small Steps to Move Closer to God 01 2020 THE BIG DEAL... shows how to develop a stronger relationship with God and more effective spiritual lifestyle by taking small steps that lead to big changes. Bishop McKenzie provides very small changes--such as adding a mere thirty seconds of prayer daily--that lead to radical closeness to God. In a rapidly changing culture of uncertainty, there is a way to build a more meaningful relationship with the Almighty that's enjoyable. It doesn't mean striving for perfection. Instead, it's taking small yet meaningful steps to increase intimacy with God. The result of these small steps is a greater ability to address life's challenges and greater availability to serve family, church, and community. Increasing spiritual growth is incremental, not monumental. Mustard-seed-like increases in positive actions (and corresponding decreases in negative ones) lead to mountain-moving growth!

Black Greek-Letter Organizations 01 2022 At the turn of the twentieth century, black fraternities and sororities, also known as Black Greek-Letter Organizations (BGLOs), were an integral part of what W.E.B. Du Bois called the "talented tenth." This was the top ten percent of the black community that would serve as a cadre of educated, upper-class, motivated individuals who acquired professional credentials, skills, and capital to assist the race to attain socioeconomic parity. Today, however, BGLOs struggle to find their place and direction in a world drastically different from the one that witnessed their genesis. In recent years, there has been a growing body of scholarship on BGLOs. This collection of essays seeks to push those who think about BGLOs to engage in more critically and empirically based analysis. This book also seeks to move BGLO members and those who work with them beyond the conclusions based on hunches, conventional wisdom, intuition, and personal experience. In addition to a rich range of scholarly essays, the volume includes a kind of call and response feature between scholars and prominent members of the BGLO community.
