Extreme Economies Aug 25 2019 To predict our future, we must look to the extremes. So argues the economist Richard Davies, who takes readers to the margins of the modern economy and beyond. These extreme economies illustrate the forces that test human resilience, drive societies to failure, and promise to shape our collective future. Reviving a foundational idea from the medical sciences, Extreme Economies turns the logic of modern economics on its head by arguing that these outlier societies can teach us more about our own than we might imagine. By adapting to circumstances unimaginable to most of us, the people in these societies are pioneering the economic infrastructure of the future.

Odes Mar 01 2020 Following the Pulitzer prize-winning collection Stag's Leap, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

Radar Instruction Manual Aug 30 2022 Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Desde Cualquier Punto De Vista Sep 06 2020 Desde Cualquier Punto de Vista Desde Cualquier Punto de Vista es una mirada audaz a Santiago de Chile. Con una prosa rpidia,

un constante cambio de narrador y una irreverencia que no se le conoca en textos anteriores, Biggs aborda los problemas de la vida cotidiana en una historia que pudo ser la suya. El relato central, es el de un ejecutivo exitoso (Carlos Sims) que estando en la cima de su carrera, enfrenta un sorpresivo despido, con todo lo que ello implica: prdida del automvil de la empresa, del chofer y de mil prebendas que crea que seran para siempre. El tema no es menor, cuando va acompaado del relato de personajes como el junior de la oficina, (Pablo Carreo), quien junto a su amigo Sebastin (con una ambiguedad sexual el primero y una abierta homosexualidad el segundo), organizan una Brigada de Asalto cuyo financiamiento en una primera etapa est a cargo de una fbrica de condones que ellos mismos han montado. Personajes como la madre de Sebastin (Mara Elena Lillo) antigua combatiente del VOP, de la secretaria (Melinda) que es capaz de cualquier cosa con tal de no fallarle a su jefe, o del sub gerente (Claudio Valds Fonk) quien con un clculo cnico y sin frontera aspira al cargo mximo, se armonizan en forma sinfnica con la suegra del protagonista, que es vctima del terrible mal de Alzheimer, y de su esposa, una mujer de clase quien, desde su soledad pasiva, ve transformarse su entorno sin tener recursos ni respuestas para enfrentar el derrumbe del mundo en que creci. La novela transcurre con una velocidad abismante con una serie de otros personajes tan reales como los que construye Biggs los que van relatando una historia lineal y transversal a la vez, desde su personal punto de vista. Desde Cualquier Punto de Vista (From Any Point of View) is an audacious look at Santiago de Chile. With fast prose, a constant change of narrator and with an irreverence that we didnt see in his previous books, Biggs faces the problems of everyday life in a story that could be your own. The central plot involves a very successful executive (Carlos Sims) who, at the peak of his career, is unexpectedly fired, hence, facing all the losses the company car, the chauffeur, and thousands of other perks he thought would last forever. This theme is knit with the story of a sexually ambiguous junior executive (Pablo Carreo) and his homosexual friend Sebastin, who together decide to organize a Brigade of Assault, financed by a condom factory. The story is filled with rich characters like Sebastins mother (Mara Elena Lillo), a former V.O.P. Militant (an armed leftist group in Chile during the sixties); Melinda, the secretary who is ready to do anything for her boss; or the assistant manager, (Claudio Valds Fonk) whos trying to claw his way to the top of the Company with a lack of scruples and a cynical attitude. Woven into this rich tapestry is Carlos mother-in-law, a victim of Alzheimers; his wife, a woman with class who, from her passive loneliness, sees her world fall apart without having means or answers to face the destruction of the world she grew up in. Biggs has created a novel of breathless speed with a series of other characters that tell the story in a lineal and transversal way, from their own point of view.
