The Teacher's Funeral Apr 02 2020 If your teacher has to die, August isn't a bad time of year for it," begins Richard Peck's latest novel, a book full of his signature wit and sass. Russell Culver is fifteen in 1904, and he's raring to leave his tiny Indiana farm town for the endless sky of the Dakotas. To him, school has been nothing but a chain holding him back from his dreams. Maybe now that his teacher has passed on, they'll shut the school down entirely and leave him free to roam. No such luck. Russell has a particularly eventful season of schooling ahead of him, led by a teacher he never could have predicted—perhaps the only teacher equipped to control the likes of him: his sister Tansy. Despite stolen supplies, a privy fire, and more than any classroom's share of snakes, Tansy will manage to keep that school alive and maybe, just maybe, set her brother on a new, wiser course.

His Name Is George Floyd May 16 2021 FINALIST FOR THE 2022 NATIONAL BOOK AWARD FOR NONFICTION A landmark biography by two prizewinning Washington Post reporters that reveals how systemic racism shaped George Floyd's life and legacy—from his family's roots in the tobacco fields of North Carolina, to ongoing inequality in housing, education, health care, criminal justice, and policing—telling the story of how one man's tragic experience brought about a global movement for change. "It is a testament to the power of His Name Is George Floyd that the book's most vital moments come not after Floyd's death, but in its intimate, unvarnished and scrupulous account of his life . . . Impressive." —New York Times Book Review "Since we know George Floyd's death with tragic clarity, we must know Floyd's America—and life—with tragic clarity. Essential for our times." —Ibram X. Kendi, author of How to Be an Antiracist "A much-needed portrait of the life, times, and martyrdom of George Floyd, a chronicle of the racial awakening sparked by his brutal and untimely death, and an essential work of history I hope everyone will read." —Henry Louis Gates, Jr., author of The Black

Church: This Is Our Story, This Is Our Song The events of that day are now tragically familiar: on May 25, 2020, George Floyd became the latest Black person to die at the hands of the police, murdered outside of a Minneapolis convenience store by white officer Derek Chauvin. The video recording of his death set off the largest protest movement in the history of the United States, awakening millions to the pervasiveness of racial injustice. But long before his face was painted onto countless murals and his name became synonymous with civil rights, Floyd was a father, partner, athlete, and friend who constantly strove for a better life. His Name Is George Floyd tells the story of a beloved figure from Houston's housing projects as he faced the stifling systemic pressures that come with being a Black man in America. Placing his narrative within the

context of the country's enduring legacy of institutional racism, this deeply reported account examines Floyd's family roots in slavery and sharecropping, the segregation of his schools, the overpolicing of his community amid a wave of mass incarceration, and the callous disregard toward his struggle with addiction—putting today's inequality into uniquely human terms. Drawing upon hundreds of interviews with Floyd's closest friends and family, his elementary school teachers and varsity coaches, civil rights icons, and those in the highest seats of political power, Washington Post reporters Robert Samuels and Toluse Olorunnipa offer a poignant and moving exploration of George Floyd's America, revealing how a man who simply wanted to breathe ended up touching the world.
