Are you medically literate? Do you have any idea what your doctor looks for during a routine examination, or what questions you should ask during an office visit? If you're like most people, the answer is no. Most of us simply put our trust in this most revered of authority figures and assume he or she must know all the answers. But since in the end, it's your body and your health, you should be the one taking charge. In fact, you can help your doctor give you the best care possible by taking a proactive attitude in partnership with your doctor.

In this user-friendly and highly informative book, Drs. Shulman and Sobczyk provide vital guidelines to help you keep tabs on your health, find and evaluate the medical information you need, and ask your doctor relevant, meaningful questions. You'll learn:

- how a doctor makes a diagnosis of your medical status
- what tools the physician uses to evaluate your health (medical history, the physical examination, and medical testing)
- how to prepare for a doctor's visit and how to make the most of the average two minutes of face-to-face contact
- what questions to ask and how to prepare a concise summary of relevant symptoms
- the importance of making sure the doctor is aware of your genetic background, prior illnesses, and current medications and supplements
- what diseases are likely at each stage of life
- how to avoid illness by using preventive healthcare measures and services
- how to understand medical test results and when to request tests
- where to find quality health information on the Internet

Severance Sep 09 2020 Maybe it's the end of the world, but not for Candace Chen, a millennial, first-generation American and office drone meandering her way into adulthood in Ling Ma's offbeat, wryly funny, apocalyptic satire, *Severance*. "A stunning, audacious book with a fresh take on both office politics and what the apocalypse might bring." —Michael Schaub, NPR.org "A satirical spin on the end times-- kind of like *The Office* meets *The Leftovers*." --Estelle Tang, Elle NAMED A BEST BOOK OF THE YEAR BY: NPR * The New Yorker ("Books We Loved") * Elle * Marie Claire * Amazon Editors * The Paris Review (Staff Favorites) * Refinery29 * Bustle * BuzzFeed * BookPage * Bookish * Mental Floss * Chicago Review of Books * HuffPost * Electric Literature * A.V. Candace Chen, a millennial drone self-sequestered in a Manhattan office tower, is devoted to routine. With the recent passing of her Chinese immigrant parents, she's had her fill of uncertainty. She's content just to carry on: She goes to work, troubleshoots the teen-targeted Gemstone Bible, watches movies in a Greenpoint basement with her boyfriend. So Candace barely notices when a plague of biblical proportions sweeps New York. Then Shen Fever spreads. Families flee. Companies cease operations. The subways screech to a halt. Her bosses enlist her as part of a dwindling skeleton crew with a big end-date payoff. Soon entirely alone, still unfevered, she photographs the eerie, abandoned city as the anonymous blogger NY Ghost. Candace won't be able to make it on her own forever, though. Enter a group of survivors, led by the power-hungry IT tech Bob. They're traveling to a place called the Facility, where, Bob promises, they will have everything they need to start society anew. But Candace is carrying a secret she knows Bob will exploit. Should she escape from her rescuers? A send-up and takedown of the rituals, routines, and missed opportunities of contemporary life, Ling Ma's *Severance* is a moving family story, a quirky coming-of-adulthood tale, and a hilarious, deadpan satire. Most important, it's a heartfelt tribute to the connections that drive us to do more than survive.
