Manuals Combined: U.S. Navy Journalist Basic, Journalist Advanced And Journalist 3 & 2 Training Publications Nov 20 2021 Over 1,300 total pages ... To the young man or woman choosing a Navy career field, whether for one enlistment or for 30 years, the journalist rating offers endless avenues for an imaginative, yet mature, thinker. Many of the duties and responsibilities of the journalist rank among Americans' favorite hobbies and pastimes, such as writing, broadcasting and photography. The Navy journalist learns and practices a distinguished profession and becomes an official representative of the Navy in public affairs matters. The first enlisted specialists to work full time in the field of Navy journalism were Naval Reserve personnel selected during the early years of World War II. They were designated Specialist X (Naval Correspondents). In 1948, under a major

overhaul affecting almost every enlisted rating, the journalist (JO) rating was established. MAJOR TASKS AND RESPONSIBILITIES LEARNING OBJECTIVE: Identify the major tasks and responsibilities of the Navy journalist, the personal traits required for one to best perform the duties of the rating, the applicable NECs, and the purpose of the JO 3 & 2 training manual (TRAMAN). In our democratic society, government depends on the consent of the governed. This important principle means that, in the long run, the United States government does only what the people want it to do. Therefore, we can have a Navy only if the people know and understand the importance of the Navy and support it. The Navy, like the other services, depends on this country's citizens for the four key tools of its trade — personnel, money, materials and the authority to carry out its mission. As a Navy journalist, your main function will be to make the facts about your Navy available to the Navy's three main publics — the people at your ship or station, Navy people in general and the people of the United States as a whole.

Language and Television Series Jan 23 2022 This book offers a comprehensive linguistic analysis of contemporary US television series. Adopting an interdisciplinary and multimethodological approach, Monika Bednarek brings together linguistic analysis of the Sydney Corpus of Television Dialogue with analysis of scriptwriting manuals, interviews with Hollywood scriptwriters, and a survey undertaken with university students about their consumption of TV series. In so doing, she presents five new and original empirical studies. The focus on language use in a professional context (the television industry), on scriptwriting pedagogy, and on learning and teaching provides an applied linguistic lens on TV series. This is complemented by perspectives taken from media linguistics, corpus linguistics and sociocultural linguistics/sociolinguistics. Throughout the book, multiple dialogue extracts are presented from a wide variety of well-known fictional television series, including The Big Bang Theory, Grey's Anatomy and Bones. Researchers in applied linguistics, discourse analysis, critical discourse analysis, corpus linguistics, sociolinguistics and media linguistics will find the book both stimulating and unique in its approach.

TV Technical Operations Sep 30 2022 TV Technical Operations is an introduction for new entrants to the broadcast industry and is designed to prepare them for working in mainstream television by discussing essential techniques, technologies and work attitudes. The author explores: * the need to develop a professional approach * the occupational skills needed to meet deadlines, work under pressure and within budget * the importance of understanding the potential of broadcast equipment in program making * the need to keep up to date with the technique and technology * the responsibility to ensure continuity of experience and training in all craft skills that technical operators are required to work with * the need to maintain a critical appraisal of what and who influences working practices and how these influences affect production and viewers * an introduction to the basic skills needed to work as a multi-skilling technical operator in television * an introduction to broadcast equipment in general production use Peter Ward is a freelance cameraman and camerawork trainer working with international training and television consultancy. Masunaga Shiatsu 1st Manuals Dec 22 2021 In the 70's Shizuto Masunaga Sensei, creator of Keiraku shiatsu (meridian shiatsu), delivered fourweek correspondence courses providing students with his own purpose-written material. We saw these course books during a visit to the Iokai Shiatsu Centre in Tokyo and given their valuable content decided to translate and publish them. Other than their historical interest, we believe the four volumes (this is the first) will be extremely helpful to shiatsu students, practitioners and teachers alike. The extensive topics covered in the four manuals range from the history of shiatsu, the Japanese legislature on the subject, how to execute pressure and the rules to follow, basic techniques, exercises for health, shiatsu as first aid, clinical shiatsu, shiatsu for children and aesthetics.

Basic TV Reporting Jun 27 2022 Basic TV Reporting is a practical, easy to read guide to the skills needed to become a successful television reporter - arguably the most demanding and glamorous job in journalism. The book describes the role in detail, how reporters fit into the editorial team and where their duties begin and end. Basic TV Reporting is a practical, easy to read guide to the skills needed to become a successful television reporter - arguably the most demanding and glamorous job in journalism. The book describes the role in detail, how reporters fit into the editorial team and where their duties begin and end. The late Ivor Yorke has enjoyed a wealth of experience to pass on to aspiring broadcast journalists, having spent more than 20 years as a writer, reporter, producer and editor, before becoming Head of Journalist Training, BBC News and Current Affairs. He was also a freelance training consultant. He is the author of Television News (now in its third edition) and co-author with the late Bernard Hesketh of An Introduction to ENG, also published by Focal Press. Reviews: 'This is a short, well-constructed book which is of as much value to the interviewed as to the interviewer. It is practical and down-to-earth ('keep off the gin, and stick to the tonic') and delightfully easy to read.' British Journal of Educational Technology.
