Vessel Sanitation Program Jul 27 2019 The Centers for Disease Control and Prevention

(CDC) established the Vessel Sanitation Program (VSP) in the 1970s as a cooperative activity with the cruise ship industry. The program assists the cruise ship industry in fulfilling its responsibility for developing and implementing comprehensive sanitation programs to minimize the risk for acute gastroenteritis. Every vessel that has a foreign itinerary and carries 13 or more passengers is subject to twice-yearly inspections and, when necessary, re-inspection.

The Garden in the Machine Sep 01 2022 The Garden in the Machine explores the evocations of place, and particularly American place, that have become so central to the representational and narrative strategies of alternative and mainstream film and video. Scott MacDonald contextualizes his discussion with a wide-ranging and deeply informed analysis of the depiction of place in nineteenth- and twentieth-century literature, painting, and photography. Accessible and engaging, this book examines the manner in which these films represent nature and landscape in particular, and location in general. It offers us both new readings of the films under consideration and an expanded sense of modern film history. Among the many antecedents to the films and videos discussed here are Thomas Cole's landscape painting, Thoreau's Walden, Olmsted and Vaux's Central Park, and Eadweard Muybridge's panoramic photographs of San Francisco. MacDonald analyzes the work of many accomplished avant-garde filmmakers: Kenneth Anger, Bruce Baillie, James Benning, Stan Brakhage, Nathaniel Dorsky, Hollis Frampton, Ernie Gehr, Larry Gottheim, Robert Huot, Peter Hutton, Marjorie Keller, Rose Lowder, Marie Menken, J.J. Murphy, Andrew Noren, Pat O'Neill, Leighton Pierce, Carolee Schneemann, and Chick Strand. He also examines a variety of recent commercial feature films, as well as independent experiments in documentary and such contributions to independent video history as George Kuchar's Weather Diaries and Ellen Spiro's Roam Sweet Home. MacDonald reveals the spiritual underpinnings of these works and shows how issues of race, ethnicity, gender, and class are conveyed as filmmakers attempt to discover forms of Edenic serenity within the Machine of modern society. Both personal and scholarly, The Garden in the Machine will be an invaluable resource for those interested in investigating and experiencing a broader spectrum of cinema in their teaching, in their research, and in their lives.

Intelligent Skins Jul 07 2020 Looking to the future, Intelligent Skins sets out the principles for the design of the intelligent building envelope. It highlights an exciting new approach to the area, where the fabric of the building responds to external changes and internal demands. The prime objective is to control internal environments through a responsive building fabric rather

than by energy consuming building services systems. The authors examine the potential for integral intelligence within the fabric of the building and explore the evolution of information technology and smart materials which have allowed a whole new category of design principles to be created.

Work Design: Occupational Ergonomics Aug 08 2020 This book gives readers the tools they need to achieve work design that is ergonomically effective while remaining economically feasible. Whether studying work design/ergonomics in a college classroom, preparing for the Board of Certification in Professional Ergonomics (BCPE) exam, or working as a professional in the field, readers can depend on this book to provide them with the information they need. Work Design is a single source for ergonomics, work design, and work measurement. Its engineering orientation equips readers with practical design information and procedures; its explicit organization, conversational style, and clear explanations make it easy to read and understand. The book's many charts and graphics dynamically illustrate important concepts and principles, and its extensive references give readers confidence in the material.
