*A Model Community* Mar 02 2020 Hollywood . . . a land of movie stars, models, and million dollar deals. But not for Tim Parker. Tim has a dreary job and wastes his nights drinking with struggling writers, actors, and stand-up comics. Lately he's having trouble distinguishing one day from the next. That's until Dean Reardon, his college roommate, appears at his doorstep. Dean, the lucky one. Dean, the guy with infinite potential. Dean . . . has changed since college. He says he's come west in search of money, lost love and redemption, and desperately needs Tim's help. In *A Model Community*, what follows is a bizarre odyssey through the town that projects happy endings on the silver screen, but is less charitable with them in reality.

**Comeback** Feb 22 2022 In *Comeback*, Pulitzer Prize-winners Paul Ingrassia and Joseph B. White take us to the boardrooms, the executive offices, and the shop floors of the auto business to reconstruct, in riveting detail, how America's premier industry stumbled, fell, and picked itself up again. The story begins in 1982, when Honda started building cars in Marysville, Ohio, and the entire U.S. car industry seemed to be on the brink of extinction. It ends just over a decade later, with a remarkable turn of the tables, as Japan's car industry falters and America's Big Three emerge as formidable global competitors. *Comeback* is a story propelled by larger-than-life characters -- Lee Iacocca, Henry Ford II, Don Petersen, Roger Smith, among many others -- and their greed, pride, and sheer refusal to face facts. But it is also a story full of dedicated, unlikely heroes who struggled to make the Big Three change before it was too late.

**How to Build Max-Performance Mopar Big Blocks** Jul 18 2021 Naturally aspirated Mopar Wedge big-blocks are quite capable of producing between 600 to 900 horsepower. This book covers how to build Mopar's 383-, 400-, 413-ci, 440-ci engines to these power levels. Discussed is how to select a stock or aftermarket block for the desired performance level. The reciprocating assembly is examined in detail, so you select the right design and material for durability and performance requirements. Cylinder heads and valve train configurations are crucial for generating maximum horsepower and torque and this volume provides special treatment in this area. Camshafts and lifters are compared and contrasted using hydraulic flat tappet, hydraulic roller and solid flat tappet cams. Also, detailed engine builds at 600, 700, 800, and 900 horsepower levels provide insight and reveal what can be done with real-world component packages.

**Viper** Jan 12 2021 This beautifully photographed, all-color development history of Chrysler's Dodge Viper includes the standard Viper, the GTS, and the GTS-R. Complete with factory photos, design prototypes, customs and racing versions.

**Popular Science** Sep 27 2019 Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.
