Machine Learning for Data Streams Feb 01 2020 A hands-on approach to tasks and techniques in data stream mining and real-time analytics, with examples in MOA, a popular freely available open-source software framework. Today many information sources—including sensor networks, financial markets, social networks, and healthcare monitoring—are so-called data streams, arriving sequentially and at high speed. Analysis must take place in real time, with partial data and without the capacity to store the entire data set. This book presents algorithms and techniques used in data stream mining and real-time analytics. Taking a hands-on approach, the book demonstrates the techniques using MOA (Massive Online Analysis), a popular, freely available open-source software framework, allowing readers to try out the techniques after reading the explanations. The book first offers a brief introduction to the topic, covering big data mining, basic methodologies for mining data streams, and a simple example of MOA. More detailed discussions follow, with chapters on sketching techniques, change, classification, ensemble methods, regression, clustering, and frequent pattern mining. Most of these chapters include exercises, an MOA-based lab session, or both. Finally, the book discusses the MOA software, covering the MOA graphical user interface, the command line, use of its API, and the development of new methods within MOA. The book will be an essential reference for readers who want to use data stream mining as a tool, researchers in innovation or data stream mining, and programmers who want to create new algorithms for MOA.

Supernatural Leadership Aug 09 2020 Leadership is my passion and it has become lifestyle. I have dedicated over twenty years of my life in leadership, and have imparted in others what God has given me. I have inspired all types of people to rise up and do something in life. My intention is to make the difference in loving God, sharing that love of God, and loving my neighbor how God has commanded. I just want to be a vessel in the hands of the Lord and say to you that being happy is not difficult. Let me share something with you, I would rather be practical and communicate something from God, then to be eloquent and confuse you and lead you into error. I will make it simple, and fun, just how I am, a young pastor that rejoices in life and believes in the calling that God has given him. Dear reader, with just a few words, that is my intention. At this moment in life, exists a great necessity in this world, I am speaking of the great need for model leaders. Model leaders that our generation is willing to follow or be inspired by them, so that the potential of every individual may be projected until achieving the purpose of why God has brought us into this world for.

Manipulated into Fear Aug 28 2019 MANipulated Into Fear is based on a true story about a man I went to high school with and years later married and divorced three times within thirteen years. His name was Rolf. During this time, I was living the dark side of life but others perceived me as living a happy and perfect life. Back in our high school days Rolf grew up as a farmer and drank beer with his buddies. After high school he began to run with the wrong crowd and changed dramatically. I knew he liked to drink a lot of beer and liquor and had used drugs in the past, but I was not aware of his addictive personality and the severity of his addictions. At the beginning of our relationship each time he portrayed himself as the man I had thought he was years before. Within a period of time he began to manipulate me into fear and take control of my life to benefit himself. All three times in the beginning of my relationship with Rolf he was dedicated to Christ, was family-oriented, charming, kind, respectful, and loving, complimented me all the time, apologized for his actions, and knew how to make me feel sorry for him. Shortly after I would marry him he would begin to manipulate and con me into doing things I did not want to do. Rolf would call me uncountable times during the day and want to know my whereabouts. He then insisted on being with me except for when I was at work. This took my time away from friends and family, and that is when the mental abuse began. He stopped complimenting me and began calling me names making me feel worthless, and told me that nobody liked me. When I would accuse him of wrongdoings he would become outraged, screaming at me and using profanity. After he gained control of me, the physical abuse began. Later, I learned that I had repeatedly been involved with a psychopath and that there is always a pattern. Get out of the relationship and dont go back! The person will never change! Five Star ForeWord Clarion Review - Elizabeth Millard One of the more hidden forms of abuse comes when a romantic partner, parent, or boss creates a hostile environment by preying on a person's fears or self-doubt. This type of emotional abuse can be devastating and have long-lasting effects. Because it may lack the physical component of violence, a victim can suffer for years before recognizing the abuse. In sharing her story, Dawnay aims to help prevent other women from falling into a similar pattern of abuse. That impetus is clear in the no-nonsense, focused fury of her writing style.
