**The Future of Financial Regulation** Mar 15 2021 A number of changes have been made to the supervision and regulation of banks as a result of the recent financial meltdown. Some are for the better, such as the Basel III rules for increasing the quality and quantity of capital in banks, but legal changes on both sides of the Atlantic now make it much more difficult to resolve failing banks by means of taxpayer funded bail-outs and could hinder bank resolution in future financial crises. In this book, Johan A. Lybeck uses case studies from Europe and the United States to examine and grade a number of bank resolutions in the last financial crisis and establish which were successful, which failed, and why. Using in-depth analysis of recent legislation, he explains how a bank resolution can be successful, and emphasizes the need for taxpayer-funded bail-outs to create a viable banking system that will promote economic and financial stability.

[From Hitler's U-Boats to Khrushchev's Spyflights](#) May 17 2021 This book tells the tale of the illustrious Royal Air Force career of Tom Clark, a World War Two gunner and post-war signaller in action during some of the most pivotal events of the twentieth century. Lovingly penned by his son, it provides an authentic insight into this dynamic period of world history. From work as an air gunner, involved in the daunting task of taking on the might of Hitler's U-boat fleet, to post-war involvement in an Intelligence capacity during the dramatic events surrounding Khrushchev and the atomic threat of the late 1950s, Clark's career was dramatic and varied to say the least. Having joined the RAF as an aircraft man just before the Second World War, Clark was destined to take part in a whole range of wartime operational engagements. His career featured involvement in the famous 1941 hunt for the elusive Bismarck, the dangers of life as part of an Air Sea Rescue squadron in conflicted waters, and the experience of training as a gunnery leader (later an instructor), training air gunners for the famed Desert Air Force. His career also took in a fraught period behind enemy lines, when his crew of four were shot down in enemy territory in Northern Italy. Seven weeks in a safe house in Florence are relayed in engaging and dramatic style, as are a raft of other personal and professional achievements, set within the context of the wider conflict. Here is a career that deserves to be recorded and celebrated, and there is perhaps no-one better placed than the subject's son to act as custodian to his thrilling story.
