Take It Away, Tommy! Jun 27 2022 Tonight's top story: the intrepid team of feline reporters is back on the beat and tackling stories like a runaway toy mouse in this second collection of Breaking Cat News comics for middle-grade readers. Once again Lupin, Elvis, and

Puck—alongside boisterous field correspondents like Tommy—deliver hard-hitting reportage on all of the most pressing issues, such as Vacuum Awareness Week, the case of the missing breakfast, and the history of fuzzy blankets. The gang also meets new characters like Burt, the free-spirited barn cat who helps solve some AV problems. And these cats will need all of the help they can get to get to the bottom of some mysterious ghost sightings and prove they're not scaredy. The More-to-Explore section includes paper dolls, how to make pet rock cats, and explores the Big Pink House and the BCN apartment within.

Defending Air Bases in an Age of Insurgency Mar 01 2020 This anthology discusses the converging operational issues of air base defense and counterinsurgency. It explores the diverse challenges associated with defending air assets and joint personnel in a counterinsurgency environment. The authors are primarily Air Force officers from security forces, intelligence, and the office of special investigations, but works are included from a US Air Force pilot and a Canadian air force officer. The authors examine lessons from Vietnam, Iraq, Afghanistan, and other conflicts as they relate to securing air bases and sustaining air operations in a high-threat counterinsurgency environment. The essays review the capabilities, doctrine, tactics, and training needed in base defense operations and recommend ways in which to build a strong, synchronized ground defense partnership with joint and combined forces. The authors offer recommendations on the development of combat leaders with the depth of knowledge, tactical and operational skill sets, and counterinsurgency mind set necessary to be effective in the modern asymmetric battlefield.

The Peregrine Returns Jun 15 2021 Peregrine falcons have their share of claims to fame. With a diving speed of over two hundred miles per hour, these birds of prey are the fastest animals on earth or in the sky, and they are now well known for adapting from life on rocky cliffs to a different kind of mountain: modern skyscrapers. But adaptability only helps so much. In 1951, there were no peregrines left in Illinois, for instance, and it looked as if the species would be wiped out entirely in North America. Today, however, peregrines are flourishing. In *The Peregrine Returns*, Mary Hennen gives wings to this extraordinary conservation success story. Drawing on the beautiful watercolors of Field Museum artist-in-residence Peggy Macnamara and photos by Field Museum research assistant Stephanie Ware, as well as her own decades of work with peregrines, Hennen uses a program in Chicago as a case study for the peregrines' journey from their devastating decline to the discovery of its cause (a thinning of eggshells caused by a by-product of DDT), through to recovery, revealing how the urban landscape has played an essential role in enabling falcons to return to the wild—and how people are now learning to live in close proximity to these captivating raptors. Both a model for conservation programs across the country and an eye-opening look at the many creatures with which we share our homes, this richly illustrated story is an inspiring example of how urban architecture can serve not only our cities' human inhabitants, but also their wild ones.

Red's Planet: Book 1 Aug 06 2020 Red's Planet, an intergalactic graphic novel fantasy series from award-winning cartoonist Eddie Pittman (writer/story artist for Disney's hit TV series Phineas and Ferb), is a nonstop adventure with a unique cast of characters unlike any you've ever seen before. Meet Red, a quirky, headstrong 10-year-old who longs to live in her own perfect paradise far away from her annoying foster family. But when a UFO mistakenly kidnaps her, Red finds herself farther away than she could have possibly imagined--across the galaxy and aboard an enormous spaceship owned by the Aquilari, an ancient creature with a taste for rare and unusual treasures. Before Red can be discovered as a stowaway, the great ship crashes on a small deserted planet, leaving her marooned with a menagerie of misfit aliens. With her newfound friend, a small gray alien named Tawee, Red must find a way to survive the hostile castaways, evade the ravenous wildlife, and contend with Goose, the planet's grumpy, feline custodian. Surely this can't be the paradise she's been hoping for. Fans of Mike Maihack's Cleopatra in Space and Ben Hatke's Zita the Spacegirl will embrace Red's Planet, a boldly illustrated and imaginative new series for readers of all ages.

The Spy and the Traitor Oct 08 2020 NEW YORK TIMES BESTSELLER • The celebrated author of Double Cross and Rogue Heroes returns with his greatest spy story yet, a thrilling Americans-era tale of Oleg Gordievsky, the Russian whose secret work helped hasten the end of the Cold War. "The best true spy story I have ever read."—JOHN LE CARRÉ Named a Best Book of the Year by The Economist • Shortlisted for the Bailie Giffords Prize in Nonfiction If anyone could be considered a Russian counterpart to the infamous British double-agent Kim Philby, it was Oleg Gordievsky. The son of two KGB agents and the product of the best Soviet institutions, the savvy, sophisticated Gordievsky grew to see his nation's communism as both criminal and philistine. He took his first posting for Russian intelligence in 1968 and eventually became the Soviet Union's top man in London, but from 1973 on he was secretly working for MI6. For nearly a decade, as the Cold War reached its twilight, Gordievsky helped the West turn the tables on the KGB, exposing Russian spies and helping to foil countless intelligence plots, as the Soviet leadership grew increasingly paranoid at the United States's nuclear first-strike capabilities and brought the world closer to the brink of war. Desperate to keep the circle of trust close, MI6 never revealed Gordievsky's name to its counterparts in the CIA, which in turn grew obsessed with figuring out the identity of Britain's obviously top-level source. Their obsession ultimately doomed Gordievsky: the CIA officer assigned to identify him was none other than Aldrich Ames, the man who would become infamous for secretly spying for the Soviets. Unfolding the delicious three-way gamesmanship between America, Britain, and the Soviet Union, and culminating in the gripping cinematic beat-by-beat of Gordievsky's nail-biting escape from Moscow in 1985, Ben Macintyre's latest may be his best yet. Like the greatest novels of John le Carré, it brings readers deep into a world of treachery and betrayal, where the lines bleed between the personal and the professional, and one man's hatred of communism had the power to change the future of nations.
