This work has been selected by scholars as being culturally important, and is part of the
knowledge base of civilization as we know it. This work was reproduced from the original
artifact, and remains as true to the original work as possible. Therefore, you will see the
original copyright references, library stamps (as most of these works have been housed in our
most important libraries around the world), and other notations in the work. This work is in
the public domain in the United States of America, and possibly other nations. Within the
United States, you may freely copy and distribute this work, as no entity (individual or
corporate) has a copyright on the body of the work. As a reproduction of a historical
artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc.
Scholars believe, and we concur, that this work is important enough to be preserved,
reproduced, and made generally available to the public. We appreciate your support of the
preservation process, and thank you for being an important part of keeping this knowledge
alive and relevant.

Bessie Coleman Paper Doll Set Jul 06 2020 Bessie Coleman (1892-1926) overcame obstacles to become the first U.S. female pilot of African and Native American descent as well as the first aviator of that heritage to hold an international pilot's license in the U.S. She accomplished both goals by teaching herself French and moving to France to take lessons and receive a pilot's license because she was not permitted to do so in the U.S. This Bessie Coleman paper doll set comes with two paper dolls with different hair-styles. The paper dolls stand approximately 9" tall. The set comes with seven outfits, three of which are based on flight clothes Coleman wore in her photographs, an attached stand, and an envelope to store the dolls and clothes. The paper doll book also includes her brief biography. PLEASE NOTE: The paper used in this book is standard 20 lb. paper.

Working with Paper Aug 19 2021 Working with Paper builds on a growing interest in the materials of science by exploring the gendered uses and meanings of paper tools and technologies, considering how notions of gender impacted paper practices and in turn how paper may have structured knowledge about gender. Through a series of dynamic investigations covering Europe and North America and spanning the early modern period to the twentieth century, this volume breaks new ground by examining material histories of paper and the gendered worlds that made them. Contributors explore diverse uses of paper—from healing to phenological analysis to model making to data processing—which often occurred in highly gendered, yet seemingly divergent spaces, such as laboratories and kitchens, court rooms and boutiques, ladies' chambers and artisanal workshops, foundling houses and colonial hospitals, and college gymnasiums and state office buildings. Together, they reveal how notions of masculinity and femininity became embedded in and expressed through the materials of daily life. Working with Paper uncovers the intricate negotiations of power and difference underlying epistemic practices, forging a material history of knowledge in which quotidian and scholarly practices are intimately linked.
