Hard Reset Oct 28 2022 When the city is evacuated, Cat is happy to follow the rules and leave New Orleans with everyone else. Instead, she finds herself mixed up with Anomaly, the domestic terror group responsible for the bombing in Chicago three months ago—or so the world believes. It's the last place she wants to be, and after everything she's seen, they aren't willing to let her walk away. For Cadence, the middle of nowhere seemed like a good place to lay low, but staying off Homeland Security's radar is tricky, especially if her bosses continue to make deals with the local Anomaly contingent. She survives by working for an aging drug organization, and getting ahead means going after the ones in charge. But she's not the only one scheming. And while Anomaly's leaders fight over their next move, its supporters are hungry to give the country the hard reset they believe it needs, and with the leading terrorist hunter distracted by his own troubles, there may not be anyone who can stop them.

German Technical Dictionary May 23 2022 Since its publication in 1995, the German Technical Dictionary has established itself as the definitive resource for anyone who needs to translate technical documents between German and English. This new edition has been substantially revised to reflect the technological environment of the twenty-first century. The revised edition contains over 75,000 entries, of which over 5,000 are new, with many new entries in the areas of: * the Internet and telecommunications * bio-technology and the new genetics * new developments in health technology. Throughout, this dictionary continues to benefit from the features that made the first edition so valuable, including accurate translations in British and American English and an attractive, durable and easy to use layout.
