Righteous Porkchop Oct 23 2021 Asked to head up Robert F. Kennedy Jr.’s environmental organization’s “hog campaign,” Nicolette Hahn Niman embarked upon a fascinating odyssey through the inner workings of the “factory farm” industry. A searing account of an industry gone awry and one woman’s passionate fight to remedy it, Righteous Porkchop chronicles Niman’s investigation and her determination to organize a national reform movement to fight the shocking practices of industrial animal operations. She offers necessary alternatives, showing how livestock farming can be done in a better way—and she details both why and how to choose meat, poultry, dairy, eggs, and fish from traditionally farmed sources.

Silence within and beyond Pedagogical Settings Feb 01 2020 This book explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts.
