*Non-Democratic Regimes May 15 2021 A comprehensive assessment of the nature and evolving character of authoritarian regimes, their changing character and the main theoretical explanations of their incidence, character and performance. The third edition covers the rise of new forms of disguised dictatorship and semi-competitive democracy in the 21st Century.*

*Key Interiors since 1900 Mar 25 2022 This book defines the history of modern interior design through the reuse of existing buildings. This approach allows the history of the interior to be viewed as separate from the history of architecture and instead enables the interior to develop its own historical narrative. The book is organized around six thematic chapters: home, work, retail, display, leisure and culture. Each one comprises a selection of case studies in chronological order. 52 key examples dating from 1900 to the present are explored in terms of context, concept, organization and detail and are illustrated with photographs, plans, sections, concept drawings and sketches. This unique history will be invaluable for students of interior architecture and design seeking a survey tailored especially for them, as well as appealing to interested general readers.*

*Loose Leaf for Biology Mar 13 2021 Over the course of five editions, the ways in which biology is taught have dramatically changed. We have seen a shift away from the memorization of details, which are easily forgotten, and a movement toward emphasizing core concepts and critical thinking skills. The previous edition of Biology strengthened skill development by adding two new features, called CoreSKILLS and BioTIPS (described later), which are aimed at helping students develop effective strategies for solving problems and applying their knowledge in novel situations. In this edition, we have focused our pedagogy on the five core concepts of biology as advocated by "Vision and Change" and introduced at a national conference organized by the American Association for the Advancement of Science.*

*Modernism/Postmodernism Feb 09 2021 The concepts of 'Modernism' and 'Postmodernism' constitute the single most dominant issue of twentieth-century literature and culture and are the cause of much debate. In this influential volume, Peter Brooker presents some of the key viewpoints from a variety of major critics and sets these additionally alongside challenging arguments from Third World, Black and Feminist perspectives. His excellent Introduction and detailed headnotes for each section and essay provide an indispensable guide to interpreting the many different opinions, and prove to be valuable contributions in their own right.*

*The Passover Parrot, 2nd Edition Oct 08 2020 Kar-Ben Read-Aloud eBooks with Audio combine professional narration and text highlighting to bring eBooks to life! It's Lily's turn to say the Four Questions at the Passover Seder, but nobody will help her practice. Things change with the arrival of Hametz the Parrot. Clever Hametz not only helps Lily but solves the puzzle of who stole the afikomen! Back by popular demand, the newly illustrated The Passover Parrot will delight a new generation of children.*

*The Road to Wigan Pier Aug 25 2019 The Road to Wigan Pier is Orwell's 1937 study of poverty and working-class life in northern England.*

*Loose Leaf Version for Principles of Biology Sep 18 2021 Principles of Biology is reflective of the shift taking place in the majors biology course from large and detail rich to short and conceptual. A succinct and inviting text focused on central concepts, Principles of Biology helps students connect fundamental principles while challenging them to develop and hone critical thinking skills. Based on recommendations from the AAAS Vision and Change Report, content has been streamlined to assist students in connecting broad themes and key ideas across biology. Beginning in Chapter 1, twelve principles of biology are introduced and revisited throughout the text to help students understand stay focused on core ideas. New BioConnections features and Check Your Understanding questions ask students to be self-aware learners, analyzing what they're learning and making connections. To help students understand the key theme in biology – evolution – new Evolutionary Connections features reveal the ways in which the theory of evolution connects and informs our studies. New Quantitative Reasoning skills boxes encourage students to focus on developing reasoning and critical thinking skills.*

*Forever Stardust Jul 05 2020 Most of the many books about David Bowie track his artistic 'changes' chronologically throughout his career. This book, uniquely, examines Bowie's 'sameness': his recurring themes, images, motifs and concepts as an artist, across all his creative work, from lyrics and music through to costumes, storyboards, films, plays and painting. To be published on Bowie's 70th birthday, Forever Stardust looks at Bowie's work not as a linear evolution through calendar time, to his tragic death in January 2016, but as a matrix, a dialogue, a network of ideas that echo back and forth across the five decades of his career, interacting with each other and with the surrounding culture. It explores Bowie's creative output as a whole, tracing the repetitions and obsessions that structure his work, discovering what they tell us about Bowie in all his forms, from Ziggy Stardust to David Jones. David Bowie*

challenged cultural expectations from the early 1970s until his final masterpiece, *Blackstar*. *Forever Stardust* offers a new understanding of this remarkable & significant artist.

**Inside Black Mirror** Aug 18 2021 The first official companion to the Emmy-winning Netflix cult-hit sci-fi television series that's fascinated millions of fans worldwide, with stunning visuals and never before seen behind-the-scenes content What becomes of humanity when it's fed into the jaws of a hungry new digital machine? Discover the world of *Black Mirror* in this immersive, illustrated, oral history. This first official book logs the entire *Black Mirror* journey, from its origins in creator Charlie Brooker's mind to its current status as one of the biggest cult TV shows to emerge from the UK. Alongside a collection of astonishing behind-the-scenes imagery and ephemera, Brooker and producer Annabel Jones will detail the creative genesis, inspiration, and thought process behind each film for the first time, while key actors, directors and other creative talents relive their own involvement.

**Biology** Sep 30 2022 The previous three editions of *BIOLOGY*, written by Dr. Rob Brooker, Dr. Eric Widmaier, Dr. Linda Graham, and Dr. Peter Stiling, have reached thousands of students and provided them with an outstanding view of the biological world. Now, the fourth edition has gotten even better! The author team is dedicated to producing the most engaging and current text that is available for undergraduate students who are majoring in biology. The authors want students to be inspired by the field of biology and become critical thinkers. They understand the goal of a professor is to prepare students for future course work, lab experiences, and careers in the sciences. Building on the successes of the previous editions, the fourth edition reflects a focus on core competencies and provides a more learner-centered approach. The strength of an engaging and current text is improved with the addition of new pedagogical features that help develop and strengthen critical thinking skills.

**Biology** Jul 29 2022 Textbook for Cell and Molecular Biology.

**Genetics** Apr 25 2022

**LSC Chemistry, Cell Biology and Genetics: Volume One** Dec 22 2021 This Volume of *BIOLOGY* covers Chemistry, Cell Biology, and Genetics. The Brooker et. al text features an evolutionary focus with an emphasis on scientific inquiry.

**Batman Unmasked** Mar 01 2020 Over the sixty years of his existence, Batman has encountered an impressive array of cultural icons and has gradually become one himself. This fascinating book examines what Batman means and has meant to the various audiences, groups and communities who have tried to control and interpret him over the decades. Brooker reveals the struggles over Batman's meaning by shining a light on the cultural issues of the day that impacted on the development of the character. They include: patriotic propaganda of the Second World War; the accusation that Batman was corrupting the youth of America by appearing to promote a homosexual lifestyle to the fans of his comics; Batman becoming a camp, pop culture icon through the ABC TV series of the sixties; fans' interpretation of Batman in response to the comics and the Warner Bros. franchise of films.

**Concepts of Genetics** May 27 2022 *Concepts of Genetics* is a one semester introductory genetics text that explains genetics concepts in a concise, engaging and up-to-date manner. Rob Brooker, author of market leading texts in *Genetics and Intro Biology* for majors, brings his clear and accessible writing style to this briefer genetics text. He employs the use of experimentation and stresses the fundamentals of the Scientific Method in presenting genetics concepts, then further engages the reader through the use of formative assessment to assist the student in understanding the core genetic principles. The introduction of Learning Outcomes throughout the chapter in the 2nd edition helps the student focus on the key concepts presented in the chapter. *Concepts of Genetics, 2e* also stresses developing problem-solving skills with the new feature "Genetic TIPS" that breaks a problem down into conceptual parts (Topic, Information, Problem-Solving Strategy) to help students work through the answer. The 2nd edition will be more focused on core concepts with the narrowing of book content by eliminating specialty chapters that many courses do not have time to cover in detail (the full chapters on Developmental Genetics and Evolutionary Genetics--these general topics are discussed elsewhere, but not in the amount of detail in the first edition). The author has added new information regarding epigenetics and material on personalized medicine. The integration of the genetics text and the power of digital world are now complete with McGraw-Hill's ConnectPlus including LearnSmart. Users who purchase Connect Plus receive access to SmartBook and to the full online ebook version of the textbook.

**It All Starts Here** Oct 20 2021 *It All Starts Here* is a thorough, funny, engaging, challenging, and biblical walk-through of what it means to follow Christ specifically designed for the new believer. No longer do youth pastors and church leaders need to leave the new believer with the "now what?" question still lingering in their mind after they've made that important decision. With this resource you can know that they are walking through the gospel message and basic Christian beliefs on a 31-day journey that will cover the kind of topics that would take months of sermons to cover. Just check out what others have said about this: "This captivating and relationally-driven book serves as a dynamic and interactive resource for youth ministries looking to engage their new believers in what it means to truly follow Christ." (Jeanne Mayo, Founder and President of "Youth Leader's Coach", International Speaker and Author, Director of Youth and Young Adult Outreach, Victory World Church, Norcross, GA) "Finally a book that takes students and leaders to the next phase of Christianity in a thought provoking and yet personal manner! This book is sure to be an instant tool for discipleship and a classic to draw from for generations to come! Get this book and make disciples!" (Pat Schatzline, Evangelist, Mercy Seat Ministries, Author of "Why is God so mad at me?", Trussville, AL) "Great resource for youth leaders who are serious about the task of making disciples. Its highly-practical and relational approach will help students to stick with the exciting journey of growing in their new faith in Christ." (Scotty Gibbons, Student Ministries Director, James River Assembly of God, Ozark, MO) "...an experience that is relevant, practical and much needed. I highly recommend this to anyone who journeys with kids and wants to see them grow closer to the Father." (Todd Lowans, Director, Suburban Chicago Youth for Christ, Chicago, IL) "I have never found a theologically solid, engaging, and age-appropriate discipleship book that I can hand to new converts in my youth ministry - that they will actually want to read... Until now!" (Meghan Weber, Youth Pastor, Catonsville Assembly of God, Catonsville, MD) "More believers would effectively disciple new believers if they had a practical tool they could use. *It All Starts Here* is designed to be that effective tool that is engaging and easy to use for anyone desiring to help young believers grow in Christ. This resource could be the difference maker that could help your students grow and become Disciples of Christ." (Richard Crisco, President of "Empowering Kingdom Leaders", International Speaker and Author, Pastor, Rochester First Assembly, Rochester, MI) "...a strategic solution and an essential tool for any youth ministry looking to streamline students into well-rounded disciples of Christ." (Rob Gillen, Student Ministries Pastor, Harrisburg, PA) "A "must-have" for ALL youth pastors looking to better disciple their students. A "must-read" for new believers wanting to know how to start the best journey of their lives." (Carrie Maurio, Youth pastor, Phoenixville, PA) "...breaks down simple biblical truths into understandable and memorable daily readings to bring a student to a new level of understanding and spiritual growth. As a youth ministry veteran of over 15 years I'm thrilled to see this resource be placed in the hands of today's generation." (Eran J Holt, Student Ministry Pastor, Glad Tidings

AG, Speaker, Writer, Adjunct Faculty VFCC, Reading, PA) "...walks you through real questions asked in a real world resulting in real growth." (Mike Miller, Yout

**Enriched Care Planning for People with Dementia** Jan 29 2020 The correlation between 'disengagement' and illness in people with dementia living in long-term care settings is becoming more widely recognised, and developing and adapting front-line staff responses to the changing needs of individuals is a crucial factor in addressing this problem. This book presents a complete practical framework for whole person assessment, care planning and review of persons with dementia or signs of dementia (including those with learning disabilities) who are in need of, or already receiving, health and/or social support. The book provides photocopiable assessment forms, guidelines for carrying out the assessment, and suggestions for tailored interventions based on the profile that emerges from the assessment process. The authors also include a clear explanation of the five theoretical components of dementia that are considered in the assessment: health, biography, personality, neurological impairment and social psychology. This good practice guide will provide a step up to the challenge of providing person centred care as a minimum standard rather than just an ideal. Care workers in residential settings and social workers assessing clients for their support requirements will find this an essential resource.

**Why Bowie Matters** Oct 27 2019 A unique, moving and dazzlingly researched exploration of the places, people, musicians, writers and filmmakers that inspired David Jones to become David Bowie, what we can learn from his life's work and journey, and why he will always matter.

**Star Wars** Nov 20 2021 The release of Star Wars in 1977 marked the start of what would become a colossal global franchise. Star Wars remains the second highest-grossing film in the United States, and George Lucas's six-part narrative has grown into something more: a culture that goes far beyond the films themselves, with tie-in toys, novels, comics, games and DVDs as well as an enthusiastic fan community which creates its own Star Wars fictions. Critical studies of Star Wars have treated it as a cultural phenomenon, or in terms of its special effects, fans and merchandising, or as a film that marked the end of New Hollywood's innovation and the birth of the blockbuster. Will Brooker's illuminating study of the film takes issue with many of these commonly-held ideas about Star Wars. He provides a close analysis of Star Wars as a film, carefully examining its shots, editing, sound design, cinematography and performances. Placing the film in the context of George Lucas's previous work, from his student shorts to his 1970s features, and the diverse influences that shaped his approach, from John Ford to Jean-Luc Godard, Brooker argues that Star Wars is not, as Lucas himself has claimed, a departure from his earlier cinema, but a continuation of his experiments with sound and image. He reveals Lucas's contradictory desires for total order and control, embodied by the Empire, and for the raw energy and creative improvisation of the Rebels. What seemed a simple fairy-tale becomes far more complex when we realise that the director is rooting for both sides; and this tension unsettles the saga as a whole, blurring the boundaries between Empire and Republic, dark side and light side, father and son. In his foreword to this new edition, Will Brooker discusses how subsequent films in the series, specifically *Rogue One* (2016) and *The Last Jedi* (2017), foregrounded and developed the themes of opposition that are at the heart of Star Wars. He shows how Derridean theories of opposites which become undermined and subverted, and which change places are made more clear with hindsight and provide us with a useful lens for looking back at the 1977 Star Wars.

**Dementia Reconsidered Revisited: The Person Still Comes First** Aug 06 2020 The original *Dementia Reconsidered: The Person Comes First* by Tom Kitwood was published by Open University Press in 1997. It was a seminal text in the field of dementia studies and is still cited and referenced as core reading on person-centred dementia care. Tom died unexpectedly, just 12 months after the book was published. This book continues to inspire many people to challenge simplistic paradigms about dementia. Since the original book was written, however, there have been many changes in our understanding of dementia. The editor of this new edition, Dawn Brooker was mentored by Tom Kitwood. She has drawn together a remarkable group of writers to provide a commentary on Kitwood's work. This new edition reproduces the original chapters but provides extra content from subject experts to update the book to a contemporary level. *Dementia Reconsidered Re-visited* is an ideal main text or supplementary text for all those studying or working in nursing, medicine, psychiatry, psychology, occupational therapy, social work, adult education, gerontology and health and social care more generally. "This important book does three things. It brings to a new generation the insight and vision of Tom Kitwood. It highlights the remarkable progress we have made in recent years. But most important of all it reminds us what still needs to be done if we are to fully respect the rights of people with dementia and their family care-givers. Kitwood inspired Alzheimer's Society to knit together research, care, and societal change. We are now re-inspired to make sure all progress is evidenced and evaluated for its impact. We must realise the enormous opportunities the digital age offers people affected by dementia but in doing so constantly listen to and learn from their many and varied voices across nations and cultures." Jeremy Hughes CBE, Chief Executive, Alzheimer's Society, UK

**Wellbeing in Dementia** Jul 25 2019 Whilst dementia is taught on courses, the nature of the condition is unlike any others. This practical textbook presents a developmental model of practice for the care of patients suffering from dementia and examines the inadequacies of OT.

**Re-readings: 2** Jan 23 2022 *Re-readings 2* is a companion book to *Re-readings*, originally published in 2004. This second volume is testament to the growing interest and demand for clarification of the re-modelling, adaptation and transformation processes within the existing built environment. With increased interest in the sustainability and heritage agenda and emerging interest from non-European-centric areas of the world in this type of work, this book explores how the re-modelling of existing buildings is a sustainable and viable alternative to the construction of new buildings. Throughout this highly-illustrated book, drawings and photos of various projects from around the world highlight how the new fits into the existing. Case studies are analysed holistically, and include information on the practical issues and challenges of individual projects.

**My Lucky Stroke** Jun 15 2021 Sarah Brooker was an ambitious young woman studying to be a neuroscientist. She had the world at her feet. On New Year's Eve, 2002, an unbelievable series of events occurred: a brain aneurysm, a devastating car accident, a body broken and a mind shattered. A life was changed forever. Several weeks later Sarah woke from a coma with no idea of who or where she was or what had happened. But thanks to an extraordinary quirk of the brain, Sarah could remember neuroscience. In fact, when doctors came to visit her during the many months she spent in hospital, Sarah assumed they were consulting her as the brain expert, not attending to her as a patient. *My Lucky Stroke* is an extraordinary memoir, full of life and insight, humour and drama, a story about rebuilding a life from square one that you won't easily forget.

**I Can Make You Hate** Nov 08 2020 Would you like to eat whatever you want and still lose weight? Who wouldn't? Keep dreaming, imbecile. In the meantime, if you'd like to read something that alternates between laugh-out-loud-funny and apocalyptically angry, keep holding this book. Steal it if necessary. In his latest collection of rants, raves, hastily spluttered articles and scarcely literate

scrawl, Charlie Brooker proves that there is almost nothing in this universe, big or small, that can't reduce a human being to a state of pure blind hatred. It won't help you lose weight, feel smarter, sleep more soundly, or feel happier about yourself. It WILL provide you with literally hours of distraction and merriment. It can also be used to stun an intruder, if you hit him with it correctly (hint: strike hard, using the spine, on the bridge of the nose). **ONLY A PRICK WOULDN'T BUY THIS BOOK. DON'T BE THAT PRICK.**

**Starting School Jun 23 2019** "This is a unique portrait of a group of working-class families whose 4 year old children start school on the cusp of the millenium in urban Britain. It is a brilliant analysis of ways in which parents, children and teachers strive to cross cultural and linguistic boundaries to come to a common understanding of 'school'. Beautifully written, it is essential reading for all involved in the education of young children." - Eve Gregory, Professor of Language and Culture in Education, Goldsmiths, University of London. "This book will challenge and support practitioners in their quest to improve early childhood practice. The use of theory is 'friendly' and the real-life examples of the experiences of young children and their parents really bring home to the reader the experience of inequality. Readers will rarely find a book which expresses the complexity of educational experience in such an accessible form. This is a valuable book for every level of early years training." - Iram Siraj-Blatchford, Professor of Early Childhood Education, Institute of Education, University of London. How does the home experience of children from poor and ethnic minority communities influence their adaptation to school? How does the traditional 'child-centred' and progressive pedagogy of early years classrooms meet the needs of children from culturally diverse backgrounds? Starting School seeks to address these key questions by tracing the learning experiences of individual children from a poor inner-urban neighbourhood - half of them from Bangladeshi families - as they acquire the knowledge appropriate to their home culture and then take this knowledge to their reception class. The book highlights the small differences in family life - in parenting practices, in perspectives on childhood, and in beliefs about work and play - which make a big difference to children's adaptations to school. In other words, it shows how children succeed and fail from their early days at school. It shows too how the 'good intentions' of good teachers can sometimes allow children from certain backgrounds to become disaffected, and learn to fail; and it suggests ways of working with children from working class and multicultural families which may help both children and parents to gain a better understanding of school learning in the UK.

**Foundations of Nursing Practice Feb 21 2022** This second edition of Foundations of Nursing Practice has been revised and updated specifically to meet the needs of nursing students in all fields of practice The book explains how and why sensitive, safe, evidence-based holistic nursing care is carried out, including topics common to all fields of practice. Core nursing skills are emphasised to reflect the importance of clinical skills as well as the underpinning theory. Aids to learning in each chapter: Learning outcomes Interactive boxes for all age groups and fields of nursing practice Key words and phrases for literature searching Useful websites, references and further reading. This book provides a comprehensive introduction to nursing that will meet the needs of students, nurses returning to practice, mentors and other registered nurses. Relevant to all branches of nursing settings: infants, children, adults, pregnant women, older people and people with a learning disability or mental health problems Themes relevant to all stages and fields of nursing practice include safety, infection prevention and control, managing stress, communication, managing wounds and pressure ulcers, and dealing with loss Scenarios develop the skills of evidence-based practice, critical thinking, reflection and health promotion, and encourage further learning The areas of psychology, sociology, physiology and pathology are clearly related to nursing practice Key principles of health promotion, the law and ethics, the human lifespan and development are explained in earlier chapters, then applied in later chapters Cultural diversity information helps with understanding the needs of people from different backgrounds Person-centred approach encourages problem solving and application to practice Evidence-based practice is explicit throughout, and best-practice guidelines underpin exploration/explanation of nursing care. Easy-reference Glossary at the back of the book. Meets the requirements of the new pre-registration nursing curriculum including the NMC (2010) competencies and Essential Skills Clusters Greater emphasis on safeguarding vulnerable people, maternal health and first aid Self-test questions with answers available on accompanying website.

**Essential Techniques of Landscape Drawing May 03 2020** This beginner's guide to drawing in graphite pencil uses step-by-step exercises to teach fundamental methods for rendering all aspects of the natural landscape, with additional lessons on using charcoal, colored pencil, pastel, and other media. Following in the footsteps of author, artist, and art instructor Suzanne Brooker's previous title *The Elements of Landscape Oil Painting*, this book pairs the most universally-pursued topic for artists (drawing) with the popular subject matter of the natural landscape. Brooker breaks down landscapes into their various elements--including the earth, water, air, and trees--to convey how the fundamentals of drawing are applied to capture each aspect. Using the graphite pencil as her baseline instrument, Brooker provides you with step-by-step lessons that help you improve your rendering skills and re-create the beauty of the world outdoors. Examples from art history and contemporary masters supplement these lessons. The end result is a drawing instruction book that provides artists with everything they need to render landscapes no matter their skill level.

**Challenging Play Jun 03 2020** This book takes a detailed look at the complex area of young children's play as it is understood in the early twenty-first century, and in particular at the relationships between play, learning and teaching which are enacted in early childhood settings, across countries as different as England and the USA, Sweden and the Netherlands, Australia and New Zealand.

**Teach Yourself Cultural Studies Sep 06 2020** This comprehensive introduction highlights the key theorists and issues in cultural studies, from its origins to recent work on video games, TV fandom, and the Internet. The book's lively and easy-to-follow style is suitable for both beginners and first-level students of cultural studies.

**Person-Centred Dementia Care Sep 26 2019** The term person centred care has been widely used, misused and ill defined. It is used frequently in the aims and objectives for dementia care services and provision, although in practice what lies behind the rhetoric can be questionable. This book gives fresh definition to the important ideas behind and the implementation of person centred care for people with dementia. Dawn Brooker explains the four key elements of person centred care that comprise the VIPS model: Valuing people with dementia and those who care for them (V); treating people as Individuals (I); looking at the world from the Perspective of the person with dementia (P); and a positive Social environment in which the person living with dementia can experience relative well being (S). With an emphasis on practical application, Person Centred Dementia Care provides care organisations with clear, accessible guidelines on how to put the VIPS model into operation for effective care that is 'fit for VIPS'. Part 2 of the book comprises the VIPS organisational reflection tool, which care providers can use to assess how well they think

they are doing at providing person-centred care. This will be essential reading for practitioners working with and policy makers responsible for people with dementia at all levels.

**The Oxford Critical and Cultural History of Modernist Magazines** Dec 30 2019 The first of three volumes charting the history of the Modernist Magazine in Britain, North America, and Europe, this collection offers the first comprehensive study of the wide and varied range of 'little magazines' which were so instrumental in introducing the new writing and ideas that came to constitute literary and artistic modernism in the UK and Ireland. In thirty-seven chapters covering over eighty magazines expert contributors investigate the inner dynamics and economic and intellectual conditions that governed the life of these fugitive but vibrant publications. We learn of the role of editors and sponsors, the relation of the arts to contemporary philosophy and politics, the effects of war and economic depression and of the survival in hard times of radical ideas and a belief in innovation. The chapters are arranged according to historical themes with accompanying contextual introductions, and include studies of the *New Age*, *Blast*, *the Egoist* and *the Criterion*, *New Writing*, *New Verse*, and *Scrutiny* as well as of lesser known magazines such as the *Evergreen*, *Coterie*, the *Bermondsey Book*, the *Mask*, *Welsh Review*, the *Modern Scot*, and the *Bell*. To return to the pages of these magazines returns us a world where the material constraints of costs and anxieties over censorship and declining readerships ran alongside the excitement of a new poem or manifesto. This collection therefore confirms the value of magazine culture to the field of modernist studies; it provides a rich and hitherto under-examined resource which both brings to light the debate and dialogue out of which modernism evolved and helps us recover the vitality and potential of that earlier discussion.

***Non-democratic Regimes*** Nov 28 2019 Despite the much-vaunted 'triumph of democracy', much of the world is still ruled by political or military dictatorships. Paul Brooker's book provides a comprehensive assessment of the nature of authoritarian regimes, their changing character in the post-Cold War world, and the main theoretical explanations of their incidence, character and performance. ***A Practical Reader in Contemporary Literary Theory*** Apr 01 2020 This introduction to practicing literary theory is a reader consisting of extracts from critical analyses, largely by 20th century Anglo-American literary critics, set around major literary texts that undergraduate students are known to be familiar with. It is specifically targeted to present literary criticism through practical examples of essays by literary theorists themselves, on texts both within and outside the literary canon. Four example essays are included for each author/text presented.

***Principles of Biology*** Aug 30 2022 Overview Inspired by recommendations from the AAAS vision and Change Report. *Principles of Biology* is reflective of the shift taking place in the majors biology course from large and detail rich to short and conceptual, with a focus on new, cutting-edge science. A succinct and inviting text focused on central concepts, *Principles of Biology* helps students connect fundamental principles while challenging them to develop and hone critical thinking skills. Five new chapters introduce cutting-edge topics that will benefit students who continue their study of biology in future courses (Chapters 11, 16, 24, 41 and 47)
